How it works --- Thermage RF Machine ?

Thermage treatments are all about focusing radiofrequency energy to kic k start the body's own natural renewal process. Like most smart technolo gies, the process is relatively simple and it's a combination of heat energy to treat deep tissue, and cooling effects, to protect the skin surface and de liver better patient comfort. And our latest evolution of Thermage include s Comfort Pulse Technology, gentle vibrations and interspersed cooling t hat make your Thermage treatment even more comfortable. Even so, it's i mportant to remember every patient's circumstances are different, so for specifics, it's best to consult your Thermage physician.
